

Security cameras on school buses and high school campus

As part of the District's ongoing efforts to improve student management and ensure the health, welfare and safety of all those riding school transportation vehicles, security cameras may be utilized on any school vehicles transporting students to and from curricular and extracurricular activities. Students will not be notified when a security camera is on board and in use on District vehicles.

Security cameras are also utilized on the Sandy High School campus. Videos maintained by school security personnel are not considered education records, and may therefore be shared with parents of other students and outside law enforcement, as appropriate.
