

OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 4/7/2021

Under ODE’s **Ready Schools, Safe Learners** guidance, each school¹ has been directed to submit a plan to the district² in order to provide on-site and/or hybrid instruction. Districts must submit each school’s plan to the local school board and make the plans available to the public. This form is to be used to document a district’s, school’s or program’s plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the **Ready Schools, Safe Learners** guidance document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,³ parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation. It is required that a revised Operational Blueprint be completed and updated when there is a change of Instructional Model.

1. Please fill out the following information for your school, district or program:

Information Needed	Your Response
Name of School, District or Program	Oregon Trail Academy
Key Contact Person for this Plan	Brie Leiblein
Phone Number of this Person	503-668-8011
Email Address of this person	brie.leiblein@ortrail.k12.or.us
Sectors and Position Titles of Those Who Informed the Plan	Superintendent: Aaron Bayer Teaching and Learning Director: Katie Schweitzer Technology Director: Scott Coleman Student Services Director: Rachael George Communications Director: Julia Montieth Business Director: Timothy Belanger Human Resources Director: Ken Bucchi Facilities Director: Jim Seipel District Nurse: Brie Leiblein

¹ For the purposes of this guidance: “school” refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, “school” will be used inclusively to reference all of these settings.

² For the purposes of this guidance: “district” refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

³ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a [government-to-government](#) basis.

Information Needed	Your Response
	Transportation Director: Scott Stetson WyEast President: Alison Conner WyEast Vice President: Kalee Adams <i>Elementary Principals:</i> Kendra Payne Matt Newell Cassidy Hopkins Spencer McEwen Kimberly Brooks <i>Middle School Principals:</i> Kendra Payne Nicole Johnston Morgan McGregor
Local Public Health Office(s) or Officer(s)	Clackamas County Public Health
Name of Person Designated to Establish, Implement and Enforce Physical Distancing Requirements	Timothy Norfleet
Intended Effective Date for This Plan	April 15, 2021
Educational Service District Region	Clackamas

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

Type your response here (take as much space as you need):

3. Place an X next to the Instructional Model to be used
 - a. On-Site Learning
 - b. Hybrid Learning
 - c. Comprehensive Distance Learning
4. If you selected Comprehensive Distance Learning, you only have to enter information for the three parts under the heading Requirements for Comprehensive Distance Learning Operational Blueprint.
5. If you selected On-Site Learning or Hybrid Learning, you have to enter information for all sections under the heading Essential Requirements for Hybrid/On-Site Operational Blueprint and [submit online](#), including updating when you are changing the Instructional Model.

* Note: Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

REQUIREMENTS FOR COMPREHENSIVE DISTANCE LEARNING OPERATIONAL BLUEPRINT

This section must be completed by any school that is seeking to provide instruction through Comprehensive Distance Learning. For Private Schools, completing this section is optional (not required). Schools providing On-Site or Hybrid Instructional Models do not need to complete this section.

1. Describe why you are selecting Comprehensive Distance Learning as the school's Instructional Model for the effective dates of this plan.
Type your response here (take as much space as you need):
2. In completing this portion of the Blueprint you are attesting that you have reviewed the [Comprehensive Distance Learning Guidance](#). Please name any requirements you need ODE to review for any possible flexibility or waiver.
Type your response here (take as much space as you need):
3. Describe the school's plan, including the anticipated timeline, for returning to Hybrid Learning or On-Site Learning consistent with the *Ready Schools, Safe Learners* guidance.
Type your response here (take as much space as you need):

The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.

ESSENTIAL REQUIREMENTS FOR HYBRID OR ON-SITE OPERATIONAL BLUEPRINT

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

Requirements of each section of the guidance are listed under their corresponding heading in the RSSL document. After each set of requirements, there is a prompt where you must enter the details of your On-Site or Hybrid plan that corresponds to that section.

Advisory Health Metrics for Returning to In-Person Instruction (Section 0 of the RSSL Guidance)

Requirements for 0a. RETURNING TO IN-PERSON INSTRUCTION

- Not later than the week of March 29, 2021 all public elementary schools must operate in either an On-Site or Hybrid Instructional Model when they meet the specified county

health metrics in the chart on page 15 (green and yellow rows in the chart in Section 0b).

- A general allowance will be provided if the school has communicated a plan to families and staff with a start date on or before the week of April 5, 2021 and is using the week of March 29, 2021 to train staff for a return to in-person instruction.
- A general allowance will be provided if the school has a published calendar that shows they are not in session the week of March 29, 2021 and has communicated a plan to families and staff with a start date on or before the week of April 12, 2021 and is using the week of April 5, 2021 to train staff for a return to in-person instruction.
- A general allowance will be provided if the school is closed to in-person instruction due to a decision made in partnership with a local public health authority or the Oregon Health Authority to move to Comprehensive Distance Learning to address active transmission within a school.
- Any school not meeting this requirement will be reviewed and may result in loss of eligibility to receive state school funds or other enforcement as prescribed by Governor Brown's [Executive Order 21-06](#).
- Not later than the week of April 19, 2021 all public middle and high schools must operate in either an On-Site or Hybrid Instructional Model when they meet the specified county health metrics in the chart on page 15 (green row in the chart in Section 0b).
 - A general allowance will be provided if the school has communicated a plan to families and staff with a start date on or before the week of April 26, 2021 and is using the week of April 19, 2021 to train staff for a return to in-person instruction.
 - A general allowance will be provided if the school has a published calendar that shows they are not in session the week of April 19, 2021 and has communicated a plan to families and staff with a start date on or before the week of May 3, 2021 and is using the week of April 26, 2021 to train staff for a return to in-person instruction.
 - A general allowance will be provided if the school is closed to in-person instruction due to a decision made in partnership with a local public health authority or the Oregon Health Authority to move to Comprehensive Distance Learning to address active transmission within a school.
 - Any school not meeting this requirement will be reviewed and may result in loss of eligibility to receive state school funds or other enforcement as prescribed by Governor Brown's [Executive Order 21-06](#).
- The requirement to offer On-Site or Hybrid Instructional Models does not apply to virtual charter schools as defined in ORS 338.005 or a public school that has a permanent instructional model that is predominantly through online courses.
- Public schools may transition a portion or all of the school to Comprehensive Distance Learning when responding in partnership with a local public health authority or the Oregon Health Authority to control active transmission of COVID-19 in the school setting.

- Public schools may transition a portion or all of the school to Comprehensive Distance Learning when they are operating in a county whose metrics place it in the operational status represented by the red row in the chart in section 0b. Public middle and high schools may transition a portion or all of the school to Comprehensive Distance Learning when they are operating in a county whose metrics place it in the operational status represented by the red or yellow row in the chart in section 0b. When county trends are increasing, pause expansion of additional in-person learning and maintain access to current in-person learning for schools that have it in place. Schools are not advised to reduce in-person instruction or revert to Comprehensive Distance Learning based on county metrics if the school can demonstrate the ability to limit transmission in the school environment.
- If your public or private school is operating an On-Site or Hybrid Instructional Model, but is located in a county that does not meet the advisory metrics; that is, an elementary school in a county that is not in the On-Site or Hybrid (green) row or the Elementary On-Site or Hybrid (yellow) row or a middle or high school in a county that is not in the On-Site or Hybrid (green) row (Section 0b); the school must offer access to on-site testing for symptomatic students and staff identified on campus as well as those with known exposures to individuals with COVID. This resource is available to all schools in Oregon. [See guidance from the Oregon Health Authority.](#)
 - Schools required to offer access to this program will have two-weeks to be registered, trained, and administering the program when, or if, metrics change in their county in a way that makes this program a requirement.
 - The metrics found in the 0b Section of RSSL are what determines if a school is required to offer the program.
 - The school testing program offers an additional risk-mitigation strategy that is relatively low-burden and can help offset impacts of operating when community spread is higher even if school transmission is low/absent and RSSL protocols are firmly in place. This requirement applies anytime a school is operating in an Instructional Model that is not aligned with the county metrics case data. This is true whether your school began operating in August/September, or took a pause, or opened on January 4, or is just opening for the first time.
 - The testing program is for students in grades kindergarten and up and school staff. The program does not include early learning programs.
 - Registering for the testing program includes a self-attestation that the program will be offered. Please accept the responsibility to offer the program when you register.
- If your school is operating an On-Site or Hybrid Instructional Model, the school also must provide a distance learning option for students and families that choose to remain off-site. For schools and districts that are required to comply with all sections (0-8) and supplements to this guidance, the remote option must comply with the requirements of the Comprehensive Distance Learning Instructional Model. The school or district may determine the most beneficial way to staff this option, through partnership with other schools or ESDs or with staff who may be at more risk from COVID-19 or through other means.

- All public and private schools are required to keep their Operational Blueprint up-to-date on [ODE's website](#) and to submit weekly "[Status Reports](#)" that provide essential information regarding how many students are served in person in the implementation of this metrics framework.

Plan Details for 0a.

Please state which of the three scenarios above describes your school and then detail how your plan meets that requirement: **We are offering a Hybrid model. Our school continues to offer F2F, synchronous CDL and asynchronous CDL for all students enrolled in our district through simulcasting and recording lessons.**

Public Health Protocols (Section 1 of the RSSL Guidance)

Requirements for 1a. COMMUNICABLE DISEASE MANAGEMENT PLAN FOR COVID-19

- Conduct a risk assessment as required by OSHA administrative rule [OAR 437-001-0744\(3\)\(g\)](#). (OSHA has developed a [risk assessment template](#))
- Implement measures to limit the spread of COVID-19 within the school setting, including when the school setting is outside a building.
- Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19. Examples are located in the [Oregon School Nurses Association \(OSNA\) COVID-19 Toolkit](#).
 - Review OSHA requirements for infection control plan to ensure that all required elements are covered by your communicable disease management plan, including making the plan available to employees at their workplace. Requirements are listed in OSHA administrative rule [OAR 437-001-0744\(3\)\(h\)](#).
 - OSHA has developed a sample [infection control plan](#).
- Designate a single point-person at each school to establish, implement, support and enforce all RSSL health and safety protocols, including face coverings and physical distancing requirements, consistent with the **Ready Schools, Safe Learners** guidance and other guidance from OHA. This role should be known to all staff in the building with consistent ways for licensed and classified staff to access and voice concerns or needs.
- Create a simple process that allows for named and anonymous sharing of concerns that can be reviewed on a daily and weekly basis by the designated RSSL building point-person. Example: Anonymous survey form or suggestion box where at least weekly submissions and resolutions are shared in some format.
- Include names of the LPHA staff, school nurses, and other medical experts who provided support and resources to the district/school policies and plans. Review relevant local, state, and national evidence to inform plan.
- Process and procedures established to train all staff in sections 1 - 3 of the **Ready Schools, Safe Learners** guidance. Consider conducting the training virtually, or, if in-person, ensure physical distancing is maintained to the maximum extent possible.
- Protocol to notify the local public health authority ([LPHA Directory by County](#)) of any confirmed COVID-19 cases among students or staff.

- Plans for systematic disinfection of classrooms, common areas, offices, table surfaces, bathrooms and activity areas.
- Process to report to the LPHA any cluster of any illness among staff or students.
- Protocol to cooperate with the LPHA recommendations.
- Provide all logs and information to the LPHA in a timely manner.
- Protocol for screening students and staff for symptoms (see section 1f of the **Ready Schools, Safe Learners** guidance).
- Protocol to isolate any ill or exposed persons from physical contact with others.
- Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the **Ready Schools, Safe Learners** guidance).
- Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the [Oregon School Nurses Association COVID-19 Toolkit](#).
 - If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1d of the **Ready Schools, Safe Learners** guidance), the daily log may be maintained for the cohort.
 - If a student(s) is not part of a stable cohort, then an individual student log must be maintained.
- Required components of individual daily student/cohort logs include:
 - Child's name
 - Drop off/pick up time
 - Parent/guardian name and emergency contact information
 - All staff (including itinerant staff, district staff, substitutes, and guest teachers) names and phone numbers who interact with a stable cohort or individual student
- Protocol to record/keep daily logs to be used for contact tracing for a minimum of four weeks to assist the LPHA as needed.
 - See supplemental guidance on LPHA/school partnering on [contact tracing](#).
 - Refer to [OHA Policy on Sharing COVID-19 Information](#)
- Process to ensure that all itinerant and all district staff (maintenance, administrative, delivery, nutrition, and any other staff) who move between buildings keep a log or calendar with a running four-week history of their time in each school building and who they were in contact with at each site.
- Process to ensure that the school reports to and consults with the LPHA regarding cleaning and possible classroom or program closure if anyone who has entered school is diagnosed with COVID-19.
- Designate a staff member and process to ensure that the school provides updated information regarding current instructional models and student counts and reports these data in [ODE's COVID-19 Weekly School Status](#) system.
- Protocol to respond to potential outbreaks (see section 3 of the **Ready Schools, Safe Learners** guidance).

Plan Details for 1a.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Risk assessment completed by District Safety Committee. Custodian schedules will be adjusted as needed to have those staff members on site when students are present. High touch areas and restrooms will be sanitized on a regular basis throughout the school. Communicable Disease Management Plan includes an addendum for: COVID-19 Infection Control Plan. Oregon Trail School District (OTSD) will follow protocols outlined in the district's Communicable Disease Management Plan and [ODE/OHA Communicable Disease Guidance for Schools](#)

See Communicable Disease Management Plan: <https://rb.gy/9bnaye>

Measures to limit the spread of COVID-19 within the school setting include: Movement signage, way finding, arrows, drop down signage, identification and isolation of suggestive symptoms per OSNA Health Room Symptom Screening Algorithm.

Facilities will systematically disinfect all areas of the building regularly throughout the day and readdress any isolated areas in which a positive case was known to be: Classrooms, offices, bathrooms and activity areas.

Principals responsible for enforcing physical distancing/Lead secretary in the event Principals are unavailable.

The following experts have informed our plan:

Carolee Asher RN, Clackamas County Communicable Disease Nurse

Renee Jenkins RN, Clackamas County Communicable Disease Nurse

Brie Leiblein RN, OTSD District Nurse

Kaley Archibald Goers FNP, Clackamas School-Based Health Center

Oregon School Nurses Association

Kirsten Ingersoll, Clackamas County Public Health Emergency Preparedness Provider

We use our Safe Schools Training through Frontline to help train staff. In addition, each building will reinforce the training for each site. Will provide access to copies of EOP and Communicable Disease Management Plan to all staff Provide copies of EOP to all staff. Review training with all Facilities Staff regarding proper cleaning and sanitizing procedures, PPE and physical distancing protocols either by Zoom or in person for those with technological shortcomings to ensure all get the information. Additional training to be provided by District RN via Zoom or Google Meets as required or requested.

All reporting and communication protocols will be followed per OTSD COVID-19 Communication Protocol and [OHA Mandatory Disease Reporting](#)

All students and staff will sanitize hands upon entry to school building. Dispensing stations will be set up by either a building Custodian or Maintenance Technician. After the building spaces are cleaned each day, all spaces will be sanitized by means of an electrostatic sprayer or pump sprayer. Disinfectant will be Purtabs (active ingredient: Sodium dichloro-s-triazinetrione). Common touch points (i.e. door handles, bathroom flush handles, faucet handles, soap and paper towel dispensing handles, etc.) will be sanitized by a custodian throughout. Desks aligned to meet physical distancing requirements. Facilities department will ensure this takes place. Desk locations marked for easy

maintenance of distancing.

Screening reports will be submitted to District Nurse if cluster is identified, sent to county immediately upon receipt.

The district will work with public health to determine appropriate response to an outbreak, in consideration of all variables (including number of cases and cohorts; contact tracing results).

Use of electronic logs through Google Forms for itinerant staff and volunteers, Synergy reports for student cohort tracking (contact tracing) and OTSD Student Illness Log for absences, and health room logs for students who develop symptoms at school. All COVID-related records will be maintained for a minimum of 4 weeks.

Staff will follow ODE/OSNA Health Room Symptom Screening Algorithm, [Student Visual Screening Upon Entry Guidance](#) from OSNA, OTSD Student Visual Screening Tool, OTSD Communicable Disease Management Plan, and [ODE/OHA Communicable Disease Guidance for Schools](#). We will visually screen students at bus pick up/ parent drop off. Staff report to District Nurse daily per OTSD COVID-19 Communication Protocol (folder for each school) immediately upon a positive screening District Nurse will conduct staff/family interviews and begin contact tracing as indicated and report to LPHA for additional tracing if needed.

Students riding the bus are identified by name, location, pick up time: Passive screening at each entry for every school per ODE/OSNA Health Room Symptom Screening Algorithm, [Student Visual Screening Upon Entry Guidance](#) from OSNA.

Isolation spaces are identified by each school. Individual portable isolation pods have been purchased and will be available at all schools for any ill or exposed students or staff. After each use, a pod will be thoroughly cleaned and disinfected using a hydrogen peroxide based product

Per OTSD COVID-19 Communication Protocol and [OHA Mandatory Disease Reporting](#): The District Nurse and Communication Director will collaborate with Public Health on appropriate messaging to inform staff, parents, and the community about exposure risk, confirmed cases, outbreaks, and interventions such as temporary class/school closure. Letter templates have been created to rapidly communicate all COVID related updates to staff, parents, and the community at large. The district has created and posted signs district/school-wide to promote health safety measures. District Health Protocols are posted and distributed through multiple communication channels to staff, parents, students, and community.

District Nurse and LPHA will use electronic methods of cohort tracking and contact tracing, maintaining records for at least for 4 weeks.

In response to an outbreak we will follow guidelines outlined in the Planning for COVID-19 Scenarios in Schools toolkit.

Our schools will follow and implement the following measures based on the Communicable Disease Management Plan to limit Covid-19 spread within the school environment:

- A. Implement established physical distancing and personal hygiene routines for staff and students.

- B. Implement established routines of all learning spaces and learning tools.
- C. Implement established stable cohorts for transportation and instruction.
- D. Implement established entry and screening procedures for students, staff, and visitors.
- E. Implement established routines for arrival and dismissal.
- F. Limit visitors and volunteers to essential functions only.
- G. Implement established protocols for face coverings and face shields.
- H. Implement established isolation protocols for exposed and symptomatic students and staff in all locations, including bus stops.

The Principal will enforce and implement established physical distancing requirements that are consistent with ODE and OHA guidance.

Our schools will implement established isolation Protocols.

If, while operating under our Hybrid Instructional Model, Clackamas County fails to meet the advisory metrics, we will offer responsive testing for symptomatic students and staff and those with known exposure to individuals with COVID-19.

Requirements for 1b. HIGH-RISK POPULATIONS

- Serve students in high-risk population(s) whether learning is happening through On-Site (*including outside*), Hybrid (partially On-Site and partially Comprehensive Distance Learning models), or Comprehensive Distance Learning models.

Medically Fragile, Complex and Nursing-Dependent Student Requirements

- All districts must account for students who have health conditions that require additional nursing services. Oregon law ([ORS 336.201](#)) defines three levels of severity related to required nursing services:
 - Medically Complex: Are students who may have an unstable health condition and who may require daily professional nursing services.
 - Medically Fragile: Are students who may have a life-threatening health condition and who may require immediate professional nursing services.
 - Nursing-Dependent: Are students who have an unstable or life-threatening health condition and who require daily, direct, and continuous professional nursing services.
- Review [Supplemental Guidance on Community and Health Responsibilities Regarding FAPE in Relation to IDEA During CDL and Hybrid](#).
- Staff and school administrators, in partnership with school nurses, or other school health providers, should work with interdisciplinary teams to address individual student needs. The school registered nurse (RN) is responsible for nursing care provided to individual students as outlined in ODE guidance and state law:
 - Communicate with parents and health care providers to determine return to school status and current needs of the student.

- Coordinate and update other health services the student may be receiving in addition to nursing services. This may include speech language pathology, occupational therapy, physical therapy, as well as behavioral and mental health services.
- Modify Health Management Plans, Care Plans, IEPs, or 504 or other student-level medical plans, as indicated, to address current health care considerations.
- The RN practicing in the school setting should be supported to remain up to date on current guidelines and access professional support such as evidence-based resources from the [Oregon School Nurses Association](#).
- Service provision should consider health and safety as well as legal standards.
- Appropriate medical-grade personal protective equipment (PPE) should be made available to [nurses and other health providers](#).
- Work with an interdisciplinary team to meet requirements of ADA and FAPE.
- High-risk individuals may meet criteria for exclusion during a local health crisis.
- Refer to updated state and national guidance and resources such as:
 - U.S. Department of Education Supplemental Fact Sheet: Addressing the Risk of COVID-19 in Preschool, Elementary and Secondary Schools While Serving Children with Disabilities from March 21, 2020.
 - ODE guidance updates for Special Education. Example from March 11, 2020.
 - OAR 581-015-2000 Special Education, requires districts to provide ‘school health services and school nurse services’ as part of the ‘related services’ in order ‘to assist a child with a disability to benefit from special education.’
 - OAR 333-019-0010 Public Health: Investigation and Control of Diseases: General Powers and Responsibilities, outlines authority and responsibilities for school exclusion.

Plan Details for 1b.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

High risk students will be offered both synchronous (virtual) and Hybrid (brick and mortar) models.

All students will be served in the appropriate setting based on need (on-site or in our remote learning option).

The district nurse will communicate with families of students who are known to be immunocompromised and request consultation with the physician and specialists in regards to school attendance.

Students will be offered the option of remote learning at the discretion of their physicians for the duration of the pandemic or high community incidence.

As needed multidisciplinary teams will be convened to update 504s, IEPs, or other plans.

1:1 nurse case managers will consult with physicians and family to determine appropriate measures.

District nurse will provide appropriate communications and notifications on specific student needs to appropriate staff.

Broad communication will go out to district families requesting students with chronic diagnoses in high-risk categories consult with their physicians prior to school reopening and to communicate with district staff regarding needs.

Nursing staff will be provided with appropriate PPE. Our District Nurse will be provided continued access to the [Oregon School Nurse Association](#) for in-services, trainings and changes in laws and practice.

Requirements for 1c. PHYSICAL DISTANCING

- Elementary Level: Support physical distancing in all daily activities and instruction, maintaining at least 3 feet between students to the maximum extent possible.
- Middle and High School Level when at a county case rate of <200 (green level on the metrics chart in Section 0): Support physical distancing in all daily activities and instruction, maintaining at least 3 feet between students to the maximum extent possible.
 - If schools have met the requirements and begun operating, and then metrics move to a more restrictive threshold (yellow or red), schools are not required to shift from operating with 3 feet of physical distance to 6 feet of physical distance. A Local Public Health Authority (LPHA), in partnership with the school and district leadership, may call for a shift in physical distancing requirements, including in response to an outbreak or transmission within the school.
- Middle and High School Level when at a county case rate of ≥ 200 (yellow and red levels on the metrics chart in Section 0): Support physical distancing in all daily activities and instruction, maintaining at least 6 feet between students to the maximum extent possible.
- All Levels: Support physical distancing in all daily activities and instruction, maintaining 6 feet between staff at all times and 6 feet between staff and students to the maximum extent possible.
- Consider physical distancing requirements when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the calculation. Additional space for entry, exit, and movement within classroom should be considered. This also applies for professional development and staff gatherings.
 - Within this design, consider minimum space for educators to have their own space in the learning environment and allow for the educator to move through the room efficiently and carefully while maintaining 6 feet of physical distance between the educator and the student to the maximum extent feasible.
- Minimize time standing in lines and take steps to ensure that required distance between students is maintained, including marking spacing on floor, one-way traffic flow in constrained spaces, etc.
- Schedule modifications to limit the number of students in the building or outside learning space (e.g., rotating groups by days or location, staggered schedules to avoid hallway crowding and gathering).
- Plan for students who will need additional support in learning how to maintain physical distancing requirements. Provide instruction; don't employ punitive discipline.
- Staff must maintain physical distancing during all staff meetings and conferences, or consider remote web-based meetings.

Plan Details for 1c.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Classroom areas determined using wall x wall dimensions minus any built-in features which do not constitute usable floor space (i.e. built-in casework, countertops, wall mounted bookshelves, etc.). Built-in features that extend into the usable classroom space such as Science lab stations, although not usable as seating space, are included in the square footage necessary for physical distancing. Seats will be arranged to maximize classroom space and maintain physical distancing.

Floor markings installed indicating directional flow of foot traffic. Floor signage installed in areas where lines form to indicate six feet spacing

Signage in every classroom, bathroom, hall way, entry way, to promote physical distancing.

K-8 self-contained: when transitioning home stager release time.

Split student body by alpha A-L and M-Z. Exceptions made for blended families.

All staff meetings and training/workshops are done remotely.

The Oregon Trail School District has conducted a facility audit to determine the student/staff capacity of every space according to ODE guidelines.

***Classrooms will honor a minimum of 3ft per person.**

***Maximum student capacity to accommodate 3ft of physical distancing between students in each classroom.**

***One teacher per classroom.**

***One support staff member per classroom as needed.**

***Individual seating arrangements will support physical distancing.**

***Individual student supplies and backpack will be separated.**

***Floor markings for hallway traffic.**

***Hallway traffic will be modified to ensure physical distancing is maintained during transitions and hallway use.**

***Time allocated for educating and training students for safety.**

*** Staff meetings will be held virtually.**

Requirements for 1d. COHORTING

- Establish stable cohorts:
 - The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases.

- Each school must have a system for daily logs to ensure contact tracing among the cohort(s) (see section 1a).
- Minimize interaction between students in different stable cohorts (e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.
- Cleaning and sanitizing surfaces (e.g., desks, dry erase boards, door handles, etc.) must be maintained between multiple student uses, even in the same cohort.
- Design cohorts such that all students (including those protected under ADA and IDEA) maintain access to general education, grade-level academic content standards, and peers.
- Minimize the number of staff that interact with each cohort to the extent possible, staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.
- Elementary staff who interact with multiple cohorts (music, PE, library, paraprofessionals who provide supervision at recesses, etc.) should have schedules altered to reduce the number of cohorts/students they interact within a week. Consider having these staff engage via technology, altering duties so that they are not in close contact with students in multiple cohorts, or adjust schedules to reduce contacts.

Plan Details for 1d.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Use of electronic logs through Google Forms for itinerant staff and volunteers, Synergy reports for student cohort tracking (contact tracing) and district Student Illness Log for absences, and health room logs for students who develop symptoms at school. All COVID-related records will be maintained for a minimum of 4 weeks

K-8 stays intact unless and until there is a need for pullout. Speech services, reading groups, ELL groups, math support. Elementary and middle school students will be in self-contained classrooms. Custodians will clean and sanitize each area at the end of each school day so everything will be fully sanitized before the next cohort enters that space.

Common touch points will be sanitized by a custodian throughout the day using a hydrogen peroxide-based disinfectant. In the high school, assign a minimal number of students responsibility for wiping down desktops with sanitizing wipes at the end of each class. Those students will need to wear protective gloves and wash hands with soap and water afterwards.

Each class will be split into 2 cohorts by alpha, A-L and M-Z, to accommodate alternating days when needed.

The teachers and building secretary will maintain daily cohort contact tracing logs and individual (as needed) contact tracing logs.

Each cohort will maintain a regular disinfection routine and schedule throughout the day. Common areas/cohort equipment will be sanitized between cohort uses. Handwashing at regular intervals and upon classroom exit and entry.

Limited staff will interact among multiple stable cohorts. Those who do (specialists and special education) will wear masks and practice personal sanitation between interactions.

Requirements for 1e. PUBLIC HEALTH COMMUNICATION AND TRAINING

- Communicate to staff at the start of On-Site instruction and at periodic intervals explaining infection control measures that are being implemented to prevent spread of disease.
- Offer initial training to all staff prior to being in-person in any instructional model. Training could be accomplished through all staff webinar, narrated slide decks, online video, using professional learning communities, or mailing handouts with discussion. Training cannot be delivered solely through the sharing or forwarding information electronically or in paper copy form as this is an insufficient method for ensuring fidelity to public health protocols ([see section 8b](#) for specific training requirements). Note: Instructional time requirements allow for time to be devoted for professional learning that includes RSSL training.
- Post “COVID -19 Hazard Poster” and “Masks Required” signs as required by OSHA administrative rule [OAR 437-001-0744\(3\)\(d\) and \(e\)](#).
- Develop protocols for communicating with students, families and staff who have come into close contact with a person who has COVID-19.
 - The definition of exposure is being within 6 feet of a person who has COVID-19 for at least 15 cumulative minutes in a day.
 - OSHA has developed a [model notification policy](#).
- Develop protocols for communicating immediately with staff, families, and the school community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.
- Periodic interval training also keeps the vigilance to protocols ever present when fatigue and changing circumstances might result in reduced adherence to guidance.
- Provide all information in languages and formats accessible to the school community.

Plan Details for 1e.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

The district will communicate diagnosed COVID-19 cases with staff and school community under LPHA guidance.

The District Nurse and Communication Director will collaborate with Public Health on appropriate messaging to inform staff, parents, and the community about exposure risk, confirmed cases, outbreaks, and interventions such as temporary class/school closure. Letter templates have been created to rapidly communicate all COVID related updates to staff, parents, and the community at large. The district has created and posted signs district/school-wide to promote health safety measures. District Health Protocols are posted and distributed through multiple communication channels to staff, parents, students, and community.

Our school will communicate all public health information electronically to families via ParentSquare/or letter and will be translated.

Requirements for 1f. ENTRY AND SCREENING

- Direct students and staff to stay home if they have COVID-19 symptoms. COVID-19 symptoms are as follows:
 - Primary symptoms of concern: cough, fever (temperature of 100.4°F or higher) or chills, shortness of breath, difficulty breathing, or new loss of taste or smell.
 - Note that muscle pain, headache, sore throat, diarrhea, nausea, vomiting, new nasal congestion, and runny nose are also symptoms often associated with COVID-19. More information about COVID-19 symptoms is available [from CDC](#).
 - In addition to COVID-19 symptoms, students must be excluded from school for signs of other infectious diseases, per existing school policy and protocols. See pages 9-11 of OHA/ODE [Communicable Disease Guidance for Schools](#).
 - Emergency signs that require immediate medical attention:
 - Trouble breathing
 - Persistent pain or pressure in the chest
 - New confusion or inability to awaken
 - Bluish lips or face (lighter skin); greyish lips or face (darker skin)
 - Other severe symptoms
- Screen all *elementary grade* students for symptoms on-site every day. This can be done visually as well as asking students and staff about any new symptoms or close contact with someone with COVID-19. For students, confirmation from a parent/caregiver or guardian can also be appropriate. *Secondary students must also be screened every day. This can be done off-site, prior to coming to school.*
- Staff members can self-screen and attest to their own health, but regular reminders of the importance of daily screening must be provided to staff.⁴
 - Anyone displaying or reporting the primary symptoms of concern must be isolated (see section 1i) and sent home as soon as possible. [See table “Planning for COVID-19 Scenarios in Schools.”](#)
 - [Additional guidance](#) for nurses and health staff.
- Follow LPHA advice on restricting from school any student or staff known to have been exposed (e.g., by a household member) to COVID-19. [See “Planning for COVID-19 Scenarios in Schools” and the COVID-19 Exclusion Summary Guide.](#)
- Staff or students with a chronic or baseline cough that has worsened or is not well-controlled with medication must be excluded from school. Do not exclude staff or students who have other symptoms that are chronic or baseline symptoms (e.g., asthma, allergies, etc.) from school. [See the COVID-19 Exclusion Summary Guide.](#)
- Hand hygiene on entry to school every day: wash with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

⁴ Self-screening of adult staff members can be efficient but also problematic if not held to the highest of standards and building a culture where staff don’t sign-in when they have symptoms that should have them staying or working from home.

Plan Details for 1f.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Communications to staff and families/students will include Instructions for Daily Visual Symptom Screening and district exclusion policy.

Screening protocols per OTSD Communicable Disease Management Plan and [ODE/OHA Communicable Disease Guidance for Schools](#), ODE/OSNA Health Room Symptom Screening Algorithm, and [Student Visual Screening Upon Entry Guidance](#) from OSNA.

We will visually screen students at bus pick-up/parent drop-off per district Student Visual Screening Tool, and Student Visual Screening Upon Entry guidance from OSNA.

Hand sanitizer set up daily at designate school points by Custodian or Maintenance Technician, upon entry to the building, supervised dosing of each student by staff member.

Staff:

- **Staff who are symptomatic or live with a symptomatic person will be directed by the district to stay home as per ODE and OHA Covid-19 exposure guidelines.**
- **All staff are required to report when and if they have been exposed to Covid-19.**
- **Staff are required to report when they have symptoms related to Covid-19.**
- **Staff members will understand that they are responsible for the safety of students and other employees.**

Parents/Guardians/Students:

- **Parents/guardians and students are asked to report when and if a member of the family unit or the individual student has been exposed to Covid-19.**
- **Students will be directed by the district to stay home as per ODE and OHA Covid-19 exposure guidelines.**
- **Students required to stay home will have an option to participate in their classes virtually until they are cleared to return to school.**
- **Students will be visually screened by district staff upon entry to buses and/or school daily.**
- **Students exhibiting symptoms upon entry will be isolated and sent home as soon as possible.**
- **Parents will be directed to keep students at home until 72 hours after a fever is gone without medication and other symptoms are improving.**

ALL:

- **Any individual known to have been exposed to Covid-19 shall not be allowed on campus until the passage of 10 calendar days after exposure and until symptoms (e.g., fever, cough, shortness of breath, sore throat, headache) are improving.**

- **It is not appropriate to exclude staff or students who have a cough that is related to asthma, allergies, etc. Parents and guardians should provide information regarding existing conditions that cause coughing for the purpose of screening and not symptomatic of Covid-19.**
- **Hand hygiene will be required upon entry to school daily: washing with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.**

Requirements for 1g. VISITORS/VOLUNTEERS

- Restrict non-essential visitors/volunteers.
 - Examples of essential visitors include: DHS Child Protective Services, Law Enforcement, etc.
 - Examples of non-essential visitors/volunteers include: Parent Teacher Association (PTA), classroom volunteers, etc.
- Diligently screen all visitors/volunteers for symptoms and ask questions about symptoms and any close contact with someone diagnosed with COVID-19 upon every entry. Restrict from school property any visitor known to have been exposed to COVID-19. See the [COVID-19 Exclusion Summary Guide](#).
- Visitors/volunteers must wash or sanitize their hands upon entry and exit.
- Visitors/volunteers must maintain 6 feet of physical distancing, wear face coverings, and adhere to all other provisions of this guidance.

Plan Details for 1g.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

All visitors/contractors/volunteers will be:

- **Restricted from classrooms**
- **Required to wear face covering**
- **Screened before entry to school**
- **Maintain 6-foot physical distance**
- **Sanitize or wash hands on entry to & exit from school**

Visitors/Volunteers:

Visitors/Volunteers will be unable to work in school, or complete volunteer activities that require in person interaction. Adults in schools are limited to essential personnel as identified through this safety plan.

Parents picking up students will be asked to wait for their child in their vehicle or outside the school building.

Requirements for 1h. FACE COVERINGS, FACE SHIELDS, AND CLEAR PLASTIC BARRIERS

- Employers are required to provide masks, face coverings, or face shields for all staff, contractors, other service providers, visitors and volunteers.

- Face coverings or face shields for all staff, contractors, other service providers, visitors or volunteers informed by [CDC guidelines for Face Coverings](#). Individuals may remove their face coverings while working alone in private offices. Face shields are an acceptable alternative only when a person has a medical condition that prevents them from wearing a mask or face covering, when people need to see mouth and tongue motions in order to communicate, or when an individual is speaking to an audience for a short period of time and clear communication is otherwise not possible.
- Face coverings or face shields for all students in grades Kindergarten and up following [CDC guidelines for Face Coverings](#). Face shields are an acceptable alternative only when a student has a medical condition that prevents them from wearing a mask or face covering, or when people need to see the student’s mouth and tongue motions in order to communicate.
- Face coverings should be worn both indoors and outdoors, including during outdoor recess.
- “Group mask breaks” or “full classroom mask breaks” are not allowed. If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time:
 - Provide space well away from peers while the face covering is removed. In the classroom setting, an example could be a designated chair where a student can sit and take a 15 minute or less “sensory break;”
 - Students must not be left alone or unsupervised;
 - Designated area or chair must be appropriately distanced from other students and of a material that is easily wiped down for disinfection after each use;
 - Provide additional instructional supports to effectively wear a face covering;
 - Provide students adequate support to re-engage in safely wearing a face covering;
 - Students cannot be discriminated against or disciplined for an inability to safely wear a face covering.
- Face masks⁵ for school RNs or other medical personnel when providing direct contact care and monitoring of staff/students displaying symptoms. School nurses shall also wear appropriate Personal Protective Equipment (PPE) for their role.
 - [Additional guidance](#) for nurses and health staff.

Accommodations under ADA or IDEA and providing FAPE while attending to Face Covering Guidance

- If any student requires an accommodation to meet the requirement for face coverings, districts and schools must limit the student’s proximity to students and staff to the extent possible to minimize the possibility of exposure. Appropriate accommodations could include:
 - Offering different types of face coverings and face shields that may meet the needs of the student.
 - Spaces away from peers while the face covering is removed; students must not be left alone or unsupervised.
 - Short periods of the educational day that do not include wearing the face covering, while following the other health strategies to reduce the spread of disease.
 - Additional instructional supports to effectively wear a face covering.
- For students with existing medical conditions and a physician’s orders to not wear face coverings, or other health related concerns, schools/districts **must not** deny any in-person instruction.

⁵ Face masks refer to medical-grade face masks in this document. RNs and other healthcare providers should refer to OHA for updated information.

- Schools and districts must comply with the established IEP/504 plan prior to the closure of in-person instruction in March of 2020, or the current plan in effect for the student if appropriately developed after March of 2020.
 - If a student eligible for, or receiving services under a 504/IEP, **cannot** wear a face covering due to the nature of the disability, the school or district must:
 1. Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student’s plan including on-site instruction with accommodations or adjustments.
 2. Not make placement determinations solely on the inability to wear a face covering.
 3. Include updates to accommodations and modifications to support students in plans.
 - For students protected under ADA/IDEA, who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering, the school or district must:
 1. Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student’s plan.
 2. The team must determine that the disability is not prohibiting the student from meeting the requirement.
 - If the team determines that the disability is prohibiting the student from meeting the requirement, follow the requirements for students eligible for, or receiving services under, a 504/IEP who cannot wear a face covering due to the nature of the disability,
 - If a student’s 504/IEP plan included supports/goals/instruction for behavior or social emotional learning, the school team must evaluate the student’s plan prior to providing instruction through Comprehensive Distance Learning.
 3. Hold a 504/IEP meeting to determine equitable access to educational opportunities which may include limited in-person instruction, on-site instruction with accommodations, or Comprehensive Distance Learning.
- For students not currently served under an IEP or 504, districts must consider whether or not student inability to consistently wear a face covering or face shield as required is due to a disability. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504.
- If a staff member requires an accommodation for the face covering or face shield requirements, districts and schools shall work to limit the staff member’s proximity to students and staff to the extent possible to minimize the possibility of exposure.

Plan Details for 1h.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

All staff will wear face coverings when students or other staff are present or when dealing with an outside vendor/contractor/volunteer. Face coverings may be removed when working alone in their personal workspace only.

Face coverings have been provided and clear plexi-glass barriers have been installed at all front office staff locations.

Appropriate PPE for District RN and staff supervising isolation rooms will be made available, including medical-grade face masks (not cloth face coverings), gloves, shoe coverings, and isolation gowns as indicated by [CDC guidelines](#)

We will adhere to student protections following ADA and IDEA requirements.

School staff, along with all district employees, will follow ODE and LPHA guidelines for face coverings and clear plastic barriers. The school secretary will utilize a clear plastic barrier and face coverings as recommended by ODE/LPHA. The school will provide the required equipment for staff as needed. The school will require outside specialists, such as SLP's and SLPA's, to wear face shields and utilize clear plastic barriers when providing services to students.

The school will require all students in grades kindergarten and up to wear a face covering and PPE as required by ODE/LPHA. ADA accommodations will be provided as needed.

If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time, the school/team will:

- Offer different types of face coverings and face shields that may meet the needs of the student.
- Space away from peers while the face covering is removed; students should not be left alone or unsupervised.
- Short periods of the educational day that do not include wearing the face covering, while following the other health strategies to reduce the spread of disease;
- Additional instructional supports to effectively wear a face covering;

The OTSD and the school will work with staff members who require an accommodation for the face covering requirements. The school will limit the staff member's proximity to students and staff to the extent possible to minimize the possibility of exposure.

Requirements for 1i. ISOLATION AND QUARANTINE

- Protocols for exclusion and isolation for sick students and staff whether identified at the time of bus pick-up, arrival to school, or at any time during the school day.
- Protocols for screening students, as well as exclusion and isolation protocols for sick students and staff identified at the time of arrival or during the school day. See the [COVID-19 Exclusion Summary Guide](#).
 - Work with school nurses, health care providers, or other staff with expertise to determine necessary modifications to areas where staff/students will be isolated. If two students present COVID-19 symptoms at the same time, they must be isolated at once. If separate rooms are not available, ensure that 6 feet distance is maintained. Do not assume they have the same illness. Consider if and where students and staff will be isolated during learning outside. Create a comfortable outdoor area for isolation or follow plan for in building isolation.
 - Consider required physical arrangements to reduce risk of disease transmission.

- Plan for the needs of generally well students who need medication or routine treatment, as well as students who may show signs of illness.
- [Additional guidance](#) for nurses and health staff for providing care to students with complex needs.
- Students and staff who report or develop symptoms must be isolated in a designated isolation area in the school or outside learning space, with adequate space and staff supervision and symptom monitoring by a school nurse, other school-based health care provider or school staff until they are able to go home. Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields.
 - School nurses and health staff in close contact with symptomatic individuals (less than 6 feet) must wear a medical-grade face mask. Other Personal Protective Equipment (PPE) may be needed depending on symptoms and care provided. Consult a nurse or health care professional regarding appropriate use of PPE. Any PPE used during care of a symptomatic individual must be properly removed and disposed of prior to exiting the care space.
 - After removing PPE, hands shall be immediately cleaned with soap and water for at least 20 seconds. If soap and water are not available, hands can be cleaned with an alcohol-based hand sanitizer that contains 60-95% alcohol.
 - If able to do so safely, a symptomatic individual shall wear a face covering.
 - To reduce fear, anxiety, or shame related to isolation, provide a clear explanation of procedures, including use of PPE and handwashing.
- Establish procedures for safely transporting anyone who is sick to their home or to a health care facility.
- Staff and students who are ill must stay home from school and must be sent home if they become ill at school, particularly if they have COVID-19 symptoms. Refer to table in [“Planning for COVID-19 Scenarios in Schools.”](#)
- Involve school nurses, School Based Health Centers, or staff with related experience (Occupational or Physical Therapists) in development of protocols and assessment of symptoms (where staffing exists).
- Record and monitor the students and staff being isolated or sent home for the LPHA review.
- The school must provide a remote learning option for students who are required to be temporarily off-site for isolation and quarantine.

Plan Details for 1i.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Isolation and quarantine will be implemented per ODE/OSNA Health Room Symptom Screening Algorithm, [Student Visual Screening Upon Entry Guidance](#) from OSNA, and OTSD Communicable Disease Management Plan and [ODE/OHA Communicable Disease Guidance for Schools](#)

Individual pods for use by students and staff alike if symptoms are reported until arrangements are made for those individuals to leave the building. Individuals providing supervision will be required to wear face coverings. Appropriate PPE for District RN and staff supervising isolation rooms will be made available, including medical-grade face masks (not cloth face coverings), gloves, shoe coverings, and isolation gowns as indicated as indicated by [CDC guidelines](#)

Workers who share a workspace, break room, etc., are to practice physical distancing, wear appropriate face covering or pre-schedule varying times in those spaces to ensure any risk of disease transmission is minimized.

Student's who are ill will report to their teacher and the office attendant will accompany the student to an isolation room if the symptoms/signs are consistent with COVID-19.

If the individual cannot drive or a family member cannot pick them up to transport them, the proposed OSHA temporary rule will be followed: Whenever employees are transported in a motor vehicle for work purposes all individuals in the vehicle must wear face coverings, regardless of the distance involved. In addition the vehicle used for transport will be fully sanitized.

Students will be transported home in a transport van. The van will be sanitized upon return.

School Nurse/Building Principal will be notified if a staff member or student is sent home for showing symptoms of Covid-19 per OTSD COVID-19 Communication Protocol and OTSD Communicable Disease Management Plan and [ODE/OHA Communicable Disease Guidance for Schools](#).

Use of electronic logs through Google Forms for itinerant staff and volunteers, Synergy reports for student cohort tracking (contact tracing) and OTSD Student Illness Log for absences, and health room logs for students who develop symptoms at school. All COVID-related records will be maintained for a minimum of 4 weeks

Bus drivers will screen students upon bus entry (we will not be taking temperatures at the bus stop) and students will be transported to the school site.

Parent drop-off students will be screened upon entry.

Staff education about symptomatology will be provided.

Office staff will administer routine medication and basic first aid. Masks and gloves will be utilized.

Students exhibiting symptoms of Covid-19 while at school will be isolated in the identified isolation room. The student will be asked to wear a mask. The student will be monitored and sent home with a parent as soon as possible. The staff member supervising the student will wear a face covering and appropriate PPE when interacting directly and properly dispose.

Medications will be distributed in an alternate location in order to reserve the health room for students who may be ill.

Teachers will be asked to significantly limit student visits to the office.

Staff who develop symptoms while at work will be sent home and their class covered. If it is not possible to cover the class with a staff member who is already part of the class's stable cohort, the adult assigned to the class will wear a mask and sanitize before and after entering the classroom.

Staff and students who become ill, particularly with Covid-19 symptoms, will stay home until ODE/OHA/LPHA criteria are met to return to school.

The building secretary and/or the district nurse will record and monitor students and staff who are isolated or sent home.

The building secretary, administrator, and other designated staff will work with the district nurse to practice protocols and assessment of symptoms. Protocols will be reviewed regularly.

Facilities and School Operations (Section 2 of the RSSL Guidance)

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the *Ready Schools, Safe Learners* guidance).

Requirements for 2a. ENROLLMENT

(Note: Section 2a does not apply to private schools.)

- Enroll all students (including foreign exchange students) following the standard Oregon Department of Education guidelines.
- The temporary suspension of the 10-day drop rule does not change the rules for the initial enrollment date for students:
 - The ADM enrollment date for a student is the first day of the student's actual attendance.
 - A student with fewer than 10 days of absence at the beginning of the school year may be counted in membership prior to the first day of attendance, but not prior to the first calendar day of the school year.
 - If a student does not attend during the first 10 session days of school, the student's ADM enrollment date must reflect the student's actual first day of attendance.
 - Students who were anticipated to be enrolled, but who do not attend at any time must not be enrolled and submitted in ADM.
- If a student has stopped attending for 10 or more days, districts must continue to try to engage the student. At a minimum, districts must attempt to contact these students and their families weekly to either encourage attendance or receive confirmation that the student has transferred or has withdrawn from school. This includes students who were scheduled to start the school year, but who have not yet attended.
- When enrolling a student from another school, schools must request documentation from the prior school within 10 days of enrollment per OAR 581-021-0255 to make all parties aware of the transfer. Documentation obtained directly from the family does not relieve the school of this responsibility. After receiving documentation from another school that a student has enrolled, drop that student from your roll.
- Design attendance policies to account for students who do not attend in-person due to student or family health and safety concerns.
- When a student has a pre-excused absence or COVID-19 absence, the school district must reach out to offer support at least weekly until the student has resumed their education.
- When a student is absent beyond 10 days and meets the criteria for continued enrollment due to the temporary suspension of the 10 day drop rule, continue to count them as absent for those days and include those days in your Cumulative ADM reporting.

Plan Details for 2a.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

All students will be enrolled following the ODE guidelines.

Requirements for 2b. ATTENDANCE

(Note: Section 2b does not apply to private schools.)

- Grades K-5 (self-contained): Attendance must be taken at least once per day for all students enrolled in school, regardless of the instructional model (On-Site, Hybrid, Comprehensive Distance Learning, online schools).
- Grades 6-12 (individual subject): Attendance must be taken at least once for each scheduled class that day for all students enrolled in school, regardless of the instructional model (On-Site, Hybrid, Comprehensive Distance Learning, online schools).
- Alternative Programs: Some students are reported in ADM as enrolled in a non-standard program (such as tutorial time), with hours of instruction rather than days present and days absent. Attendance must be taken at least once for each scheduled interaction with each student, so that local systems can track the student's attendance and engagement. Reported hours of instruction continue to be those hours in which the student was present.
- Online schools that previously followed a two check-in per week attendance process must follow the Comprehensive Distance Learning requirements for checking and reporting attendance.
- Provide families with clear and concise descriptions of student attendance and participation expectations as well as family involvement expectations that take into consideration the home environment, caregiver's work schedule, and mental/physical health.

Plan Details for 2b.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

We will follow the attendance guidance as described herein.

Requirements for 2c. TECHNOLOGY

- Update procedures for district-owned or school-owned devices to match cleaning requirements (see section 2d).
- Procedures for return, inventory, updating, and redistributing district-owned devices must meet physical distancing requirements.
- If providing learning outside and allowing students to engage with devices during the learning experiences, provide safe charging stations.

Plan Details for 2c.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Shared tools, vehicles and equipment are to be sanitized before and after use by any employee using it. If not normally shared, but borrowed from another employee who is the responsible person for that item, the borrower will be responsible for sanitizing it before and after use.

Students have access to a 1:1 assigned device. They are instructed not to share their equipment with others.

In High School CTE computer labs containing desktops, students will sanitize keyboard, mouse and work area before and after each use.

Distribution and collection of 1:1 equipment is done at outdoor “drive-thru” events.

Requirements for 2d. SCHOOL SPECIFIC FUNCTIONS/FACILITY FEATURES

- **Handwashing:** All people on campus shall be advised and encouraged to frequently wash their hands or use hand sanitizer.
- **Equipment:** Develop and use sanitizing protocols for all equipment used by more than one individual or purchase equipment for individual use.
- **Events:** Cancel, modify, or postpone field trips, assemblies, athletic events, practices, special performances, school-wide parent meetings and other large gatherings to meet requirements for physical distancing.
- **Transitions/Hallways:** Limit transitions to the extent possible. Create hallway procedures to promote physical distancing and minimize gatherings.
- **Personal Property:** Establish policies for identifying personal property being brought to school (e.g., refillable water bottles, school supplies, headphones/earbuds, cell phones, books, instruments, etc.).

Plan Details for 2d.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

- Handwashing: **Signs placed throughout buildings and in restrooms reminding of proper handwashing.**
- Equipment: **Shared tools, vehicles and equipment are to be sanitized before and after use by any employee using it. If not normally shared but borrowed from another employee who is the responsible person for that item, the borrower will be responsible for sanitizing it before and after use.**
- Events: **There will be no community or after hour school-based facility use at this time.**
- Transitions/Hallways: **Signage regarding handwashing, physical distancing, coronavirus symptoms and directional instructions will be maintained throughout all school buildings.**
- Personal Property: **Students and staff alike will be directed not to share personal items to include water bottles, headphones, cell phones, computers, calculators, textbooks, etc... Personal items of this nature will be labeled before students bring them to school.**

Requirements for 2e. ARRIVAL AND DISMISSAL

- Physical distancing, stable cohorts, square footage, and cleaning requirements must be maintained during arrival and dismissal procedures.
- Create schedule(s) and communicate staggered arrival and/or dismissal times.
- Assign students or cohorts to an entrance; assign staff member(s) to conduct visual screenings (see section 1f).
- Ensure accurate sign-in/sign-out protocols to help facilitate contact tracing by the LPHA. Sign-in procedures are not a replacement for entrance and screening requirements. Students entering school after arrival times must be screened for the primary symptoms of concern.
 - Eliminate shared pen and paper sign-in/sign-out sheets.
 - Ensure hand sanitizer is available if signing children in or out on an electronic device.
- Ensure alcohol-based hand sanitizer (with 60-95% alcohol) dispensers are easily accessible near all entry doors and other high-traffic areas. Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible. Plan Details for 2e.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Signage for constant reminders for physical distancing will be maintained inside and outside all designated building entry points.

Custodians will be available to ensure high touch items are frequently sanitized at the entry and exit points. At each school site students will be assigned entry and exit points.

Buses will load one at a time: Students will have a staggered release and physically distance while staggng. Students will load one bus at a time each bus will wait to load until the previous bus has completed loading.

All staff will be instructed to ensure they follow sign-in/sign-out protocols as put in place at each building site.

Hand sanitizing stations are being maintained at all designated entry points and high traffic areas throughout all buildings.

Upon arrival, students will proceed to stable cohort assigned classrooms or proceed to assigned breakfast pick up area and then proceed to stable cohort assigned classrooms.

Staff will be assigned to entrances to visually screen students for illness and record students with entry logs.

Stable cohorts will be dismissed to buses and vehicles on a schedule.

Students entering or leaving the building at times other than arrival or dismissal will use the main building entrance.

The building secretary will sign students in and out versus parents/guardians to eliminate shared pens/sign-in/out sheets.

Hand sanitizer will be made available at entrances and high traffic areas.

The school administrator will clearly communicate drop-off and pick-up procedures to parents that explain physical distancing and sanitation procedures. The procedure will include keeping the drop-off/pick-up routine brief.

Requirements for 2f. CLASSROOMS/REPURPOSED LEARNING SPACES

- **Seating:** Rearrange student desks and other seat spaces so that students' physical bodies are at least 3 feet apart; or at least 6 feet apart, as required in section 1c; assign seating so students are in the same seat at all times. Where possible, face all desks in same direction or have students sit on only one side of tables.
- **Materials:** Avoid sharing of community supplies when possible (e.g., scissors, pencils, etc.). Clean these items frequently. Provide hand sanitizer and tissues for use by students and staff.
- **Handwashing:** Remind students (with signage and regular verbal reminders from staff) of the utmost importance of hand hygiene and respiratory etiquette. Respiratory etiquette means covering coughs and sneezes with an elbow or a tissue. Tissues shall be disposed of in a garbage can, then hands washed or sanitized immediately.
 - Wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

Plan Details for 2f.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

- Seating: **Prior to students return to the buildings, all desks will be arranged to ensure appropriate physical distancing and students will be assigned to specific seats.**
- Materials: **Hand sanitizer, sanitizing wipes and tissues will be made available in all classrooms and staff work rooms for sanitizing commonly shared materials.**
 - **Students will not share supplies.**
 - **Students will keep pencils, etc. in individual containers.**
 - **Teachers will implement a routine of physically distanced marked pathways through the classroom and assigned intervals to use pencil sharpeners, turn in work, etc.**
 - **Teachers will use sign in/sign out (without a community pen) versus shared hall passes.**
- Handwashing: **Handwashing instructions/reminders have been placed in all building restrooms and classrooms with sinks.**

Requirements for 2g. PLAYGROUNDS, FIELDS, RECESS, BREAKS, AND RESTROOMS

- Keep school playgrounds closed to the general public until park playground equipment and benches reopen in the community (see Oregon Health Authority's [Specific Guidance for Outdoor Recreation Organizations](#)).
- After using the restroom students must wash hands with soap and water for 20 seconds. Soap must be made available to students and staff. For learning outside if portable bathrooms are used, set up portable hand washing stations and create a regular cleaning schedule.
- Before and after using playground equipment, students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.
- Designate playground and shared equipment solely for the use of one cohort at a time. Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) should be cleaned and disinfected at least daily in accordance with [CDC guidance](#).

- Cleaning requirements must be maintained (see section 2j).
- Maintain physical distancing requirements, stable cohorts, and square footage requirements.
- Provide signage and restrict access to outdoor equipment (including sports equipment, etc.).
- Design recess activities that allow for physical distancing and maintenance of stable cohorts.
- Clean all outdoor equipment at least daily or between use as much as possible in accordance with [CDC guidance](#).
- Limit the number of employees gathering in shared spaces. Restrict use of shared spaces such as conference rooms, break rooms, and elevators by limiting occupancy or staggering use, maintaining 6 feet of distance between adults. Note: The largest area of risk is adults eating together in break rooms without face coverings.

Plan Details for 2g.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

All school playgrounds open/close based on the community restrictions.

Playgrounds will continue to remain closed to students until further notice.

Signs remind users of physical distancing requirements and specify opened and closed areas.

Staff protocols for physical distancing include: no gathering in common areas in the school (cafeteria, gymnasium, workroom, lunchroom), to limit transitions, and to stay in their personal workspace as much as possible.

Requirements for 2h. MEAL SERVICE/NUTRITION

- Maintain 6 feet of physical distancing when masks cannot be worn, including when eating.
- Include meal services/nutrition staff in planning for school reentry.
- Prohibit self-service buffet-style meals.
- Prohibit sharing of food and drinks among students and/or staff.
- At designated meal or snack times, students may remove their face coverings to eat or drink but must maintain 6 feet of physical distance from others, and must put face coverings back on after finishing the meal or snack.
- Staff serving meals and students interacting with staff at mealtimes must wear face coverings (see section 1h). Staff must maintain 6 feet of physical distance to the greatest extent possible. If students are eating in a classroom, staff may supervise from the doorway of the classroom if feasible.
- Students and staff must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol before meals and shall be encouraged to do so after.
- Appropriate daily cleaning of meal items (e.g., plates, utensils, transport items).
- Cleaning and sanitizing of meal touch-points and meal counting system between stable cohorts.
- Adequate cleaning and disinfection of tables between meal periods.
- Since staff must remove their face coverings during eating and drinking, limit the number of employees gathering in shared spaces. Restrict use of shared spaces such as conference rooms and break rooms by limiting occupancy or staggering use. Consider staggering times for staff

breaks, to prevent congregation in shared spaces. Always maintain at least 6 feet of physical distancing. Wear face coverings except when eating or drinking and minimize time in spaces where face coverings are not consistently worn.

Plan Details for 2h.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Students will be handed prepackaged meals as they exit to go home or load on the school bus. Snacks may be consumed in the classroom at the teacher's discretion. Meals should be eaten at home, however there may be situations in which students have to eat their meal at school.

Sanitizing:

- **Work area surfaces are to be continuously cleaned and sanitized during the custodial work period. Floors will be swept during the day as needed and all kitchen and production areas will be swept and mopped at the end of the day**
- **Student hand washing is not necessary as they will not be handling food until they arrive at home.**
- **Sanitizing cafeteria seating and table area is not necessary as it will not be used at this time.**
- **All staff shall follow county regulations in regards to personal hygiene requirements, face coverings, glove use and hand washing regulations and procedures.**

Distancing:

- **All Staff breaks will be staggered or they must break in separate rooms to ensure physical distancing.**
- **Students will continue to wear a face covering in the building as they pick up meal packages.**
- **Signage will be present to remind students to maintain physical distancing throughout the meal pick-up time.**

We will visually screen students at bus pick-up/parent drop-off per district Student Visual Screening Tool, and Student Visual Screening Upon Entry guidance from OSNA.

Cohort Management:

- **Meal service will not create new cohorts as the serving contact time per student is anticipated to be less than 15 minutes.**
- **Middle School students will have a staggered release to minimize cohort mixings.**

Lunches will be provided as a "grab and go" option at the end of the school day and will not be provided for consumption in the classrooms or cafeteria unless a student's individual situation dictates it.

Requirements for 2i. TRANSPORTATION

- Include transportation departments (and associated contracted providers, if used) in planning for return to service.
- Buses are cleaned frequently. Conduct targeted cleanings between routes, with a focus on disinfecting frequently touched surfaces of the bus (see section 2j).
- Staff must use hand sanitizer (containing between 60-95% alcohol) in between helping each child and when getting on and off the vehicle. Gloves are not recommended; hand sanitizer is strongly preferred. If hand sanitizer is not available, disposable gloves can be used and must be changed to a new pair before helping each child.
- Develop protocol for loading/unloading that includes visual screening for students exhibiting symptoms and logs for contact-tracing. This must be done at the time of arrival and departure.
 - If a student displays COVID-19 symptoms, provide a face covering (unless they are already wearing one) and keep 6 feet away from others. Continue transporting the student.
 - The symptomatic student shall be seated in the first row of the bus during transportation, and multiple windows must be opened to allow for fresh air circulation, if feasible.
 - The symptomatic student shall leave the bus first. After all students exit the bus, the seat and surrounding surfaces must be cleaned and disinfected.
 - If arriving at school, notify staff to begin isolation measures.
 - If transporting for dismissal and the student displays an onset of symptoms, notify the school.
- Consult with parents/guardians of students who may require additional support (e.g., students who experience a disability and require specialized transportation as a related service) to appropriately provide service.
- Per federal guidance, drivers must wear properly fitting face coverings at all times. A face shield or goggles may be worn to supplement a properly fitting face covering. Please refer to the [CDC order](#).
- Inform parents/guardians of practical changes to transportation service (i.e., physical distancing at bus stops and while loading/unloading, potential for increased route time due to additional precautions, sanitizing practices, and face coverings).
- Face coverings for all students, applying the guidance in section 1h to transportation settings. This prevents eating while on the bus.
- Take all possible actions to maximize ventilation: Dress warmly, keep vents and windows open to the greatest extent possible.

Plan Details for 2i.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Sanitizing: A spray disinfectant will be applied to all buses at the end of each day. Frequently touched surfaces will be disinfected with sanitary wipes in between each route.

Air vents and windows will be opened to increase fresh air to the extent possible subject to maintaining comfortable heat on buses.

Screening: Drivers will screen students for visual symptoms when boarding. A student with visual symptoms will be placed in the first seat of the bus and provided a face covering or shield. Drivers will

radio to arrange for school staff to meet the bus at arrival and escort student to a building space pending further review.

Distancing: District communication will be sent to parents to encourage their students to maintain physical distancing when waiting at bus pick up sites. The first seat on the bus will be reserved for potential visually symptomatic students. Drivers are to wear face coverings or shields at all times. Drivers will also wear disposable gloves to be discarded after each school run. Students must wear face coverings. The driver will have a supply available for students without a covering. Students will be staggered one to a seat. If capacity with spacing is not sufficient, siblings will be placed together first, then students will sit in the next available seat. Routes will be reviewed and adjusted to maintain spacing goals when possible.

Cohort: Driver will maintain a written list of each student transported each day. The transportation office will hold the daily bus cohort lists.

- AM buses will release students one bus at a time to avoid mixing cohorts as they enter the building. Staff will also be assigned at each entrance to visually screen all students and log for contact-tracing.
- Staff will communicate with the front office concerning any student displaying COVID-19 symptoms. If any student displays symptoms, the staff member will provide a face covering to the student (if needed) and while walking the student to the front office, maintain physical distancing.
- PM buses will have elementary students escorted to the bus one classroom at a time. Middle and high school students will be released in staggered times to minimize cohort mixing. Before leaving their classroom's, teachers will be assigned to visually screen all students and log for contact-tracing.
- Staff will be assigned at each school exit to visually screen all students and log for contact-tracing.
- Staff will communicate with the front office concerning any student displaying COVID-19 symptoms. If any student displays symptoms, the staff member will provide a face shield or face covering to the student (if needed) and the student will be escorted to the front office, maintaining a six feet distance.

Requirements for 2j. CLEANING, DISINFECTION, AND VENTILATION

- Clean, sanitize, and disinfect frequently touched surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) between uses multiple times per day. Maintain clean and disinfected ([CDC guidance](#)) environments, including classrooms, cafeteria settings and restrooms. Provide time and supplies for the cleaning and disinfecting of high-touch surfaces between multiple student uses, even in the same cohort.
- Outdoor learning spaces must have at least 75% of the square footage of its sides open for airflow.

- Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment should be cleaned and disinfected at least daily in accordance with [CDC guidance](#).
- Apply disinfectants safely and correctly following labeling direction as specified by the manufacturer. Keep these products away from students.
- To reduce the risk of asthma, choose disinfectant products on the EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide, citric acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium hypochlorite (bleach), or quaternary ammonium compounds.
- Schools with HVAC systems must evaluate the system to minimize indoor air recirculation (thus maximizing fresh outdoor air) to the extent possible. Schools that do not have mechanical ventilation systems shall, to the extent possible, increase natural ventilation by opening windows and interior doors before students arrive and after students leave, and while students are present. Do not prop open doors that can pose a safety or security risk to students and staff (e.g., exterior doors and fire doors that must remain closed.)
- Schools with HVAC systems should ensure all filters are maintained and replaced as necessary to ensure proper functioning of the system.
- All intake ports that provide outside air to the HVAC system should be cleaned, maintained, and cleared of any debris that may affect the function and performance of the ventilation system.
- Consider running ventilation systems continuously and changing the filters more frequently. Do not use fans if they pose a safety or health risk, such as increasing exposure to pollen/allergies or exacerbating asthma symptoms. Consider using window fans or box fans positioned in open windows to blow fresh outdoor air into the classroom via one window, and indoor air out of the classroom via another window. Fans must not be used in rooms with closed windows and doors, as this does not allow for fresh air to circulate.
- Consider the need for increased ventilation in areas where students with special health care needs receive medication or treatments.
- Facilities must be cleaned and disinfected at least daily to prevent transmission of the virus from surfaces (see [CDC's guidance on disinfecting public spaces](#)).
- Consider modification or enhancement of building ventilation where feasible (see [CDC's guidance on ventilation and filtration](#) and [American Society of Heating, Refrigerating, and Air-Conditioning Engineers' guidance](#)).

Plan Details for 2j.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Custodian schedules will be adjusted as needed to have those staff members on site when students are present. High touch areas and restrooms will be sanitized on a regular basis throughout the school.

All cleaning staff will receive training refreshers on proper use of all sanitizing products and methods to be used.

Oxivir, a hydrogen peroxide-based product will be the primary sanitizing product used during the day when students and teaching staff are present. After hours sanitizing will be primarily using electrostatic sprayers with Purtabs, a Sodium dichloro-s-triazinetrione product, at the lowest effective rate recommended in order to minimize any asthma inducing residual the next school day.

Fresh air dampers will be opened as much as reasonably practical. In buildings with negligible ventilation alternatives will be sought out from design professionals. Intent will be to ensure a health priority above comfort.

Window/box fans provided where no other ventilation options are available.

All high touch surfaces and restrooms will be sanitized multiple times throughout the school day and classrooms and offices sanitized every evening.

All HVAC systems are regularly maintained.

Requirements for 2k. HEALTH SERVICES

- OAR 581-022-2220 Health Services, requires districts to “maintain a prevention-oriented health services program for all students” including space to isolate sick students and services for students with special health care needs. While OAR 581-022-2220 does not apply to private schools, private schools must provide a space to isolate sick students and provide services for students with special health care needs.
- Licensed, experienced health staff should be included on teams to determine district health service priorities. Collaborate with health professionals such as school nurses; SBHC staff; mental and behavioral health providers; dental providers; physical, occupational, speech, and respiratory therapists; and School Based Health Centers (SBHC).

Plan Details for 2k.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Students with special health needs will have access to staff members trained to assist the student in managing their healthcare routine at school as outlined by their management plans. Injured students, students requiring mental breaks, or students exhibiting non-COVID-like symptoms will have access to a supervised health room for respite or to wait until they are picked up by a parent. Students exhibiting symptoms consistent with COVID-19 will be isolated in separate rooms from the health rooms, supervised by trained staff until they are picked up by their parents.

Health Professionals accessible to the district:

Brie Leiblein, RN, District Nurse

Kaley Archibald-Goers, FNP, SBHC Provider

Molly Vickers Ed.S, NCSP, School Psychologist

Amy Misley Ed.s, School Psychologist

Samantha Pointer Ed.s, School Psychologist

Chrys Pappas, MA, NCSP, School Psychologist

Batinah Dawdy White, MS, SBHC Therapist

Liz Sheridan CSWA. Social Worker

Aften Pankiewicz-Waldram, MSW, CSWA

Becky Curry, School Counselor

Greg O'Neal, School Counselor

Carrie Werner, School Counselor

Cathy Callaway, School Counselor

Malcolm Simononff, School Counselor

Lexi Vuylsteke, School Counselor

Jack Horab, School Counselor

Matthew DiBiasio - M.S., CCC-SLP

Dana Hamburg MA CCC-SLP

Cathy Mershon M.S., CCC-SLP

Katie Cook MA CCC-SLP

Oregon Lions Sight and Hearing Foundation

D3 Dental Services

Columbia Regional Program

Requirements for 2I. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY

- Provide specific plan details and adjustments in Operational Blueprints that address staff and student safety, which includes how you will approach:
 - Contact tracing
 - The intersection of cohort designs in residential settings (by wing or common restrooms) with cohort designs in the instructional settings.
 - Quarantine of exposed staff or students
 - Isolation of infected staff or students
 - Communication and designation of where the “household” or “family unit” applies to your residents and staff
- Review and take into consideration [CDC guidance](#) for shared or congregate housing:

- Not allow more than two students to share a residential dorm room unless alternative housing arrangements are impossible
- Ensure at least 64 square feet of room space per resident
- Reduce overall residential density to ensure sufficient space for the isolation of sick or potentially infected individuals, as necessary;
- Configure common spaces to maximize physical distancing;
- Provide enhanced cleaning;
- Establish plans for the containment and isolation of on-campus cases, including consideration of PPE, food delivery, and bathroom needs.

Exception

- They have a current and complete RSSL Blueprint and are complying with Sections 1-3 and any other applicable sections, including Section 2L.
- The school maintains a fully-closed residential campus (no non-essential visitors allowed), and normal day school operations are only offered remotely through distance learning.
- There have been no confirmed cases of COVID-19 among school staff or students in the past 14 days.
- Less than 10% of staff, employees, or contracts (in total) are traveling to or from campus. Staff in this designation will:
 - Limit travel to essential functions.
 - Carefully monitor their own health daily and avoid coming to campus at any potential symptom of COVID-19.
- Any boarding students newly arriving to campus will either:
 - Complete a quarantine at home for 14 days* prior to traveling to the school, OR
 - Quarantine on campus for 14 days.*
- A 14-day quarantine is the safest option to prevent the spread of COVID-19 to others. However, in either option above, for boarding students who have not developed any symptoms, schools may consider ending quarantine after 10 days without any testing, or after 7 days with a negative result on a COVID-19 viral test collected within 48 hours before ending quarantine, unless otherwise directed by the local public health authority (LPHA).
- Student transportation off-campus is limited to medical care.

Plan Details for 2l.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

N/A

Requirements for 2m. SCHOOL EMERGENCY PROCEDURES AND DRILLS

- In accordance with [ORS 336.071](#) and [OAR 581-022-2225](#) all schools (including those operating a Comprehensive Distance Learning model) are required to instruct students on emergency procedures. Schools that operate an On-Site or Hybrid model need to instruct and practice drills on emergency procedures so that students and staff can respond to emergencies.
 - At least 30 minutes in each school month must be used to instruct students on the emergency procedures for fires, earthquakes (including tsunami drills in appropriate zones), and safety threats.
 - Fire drills must be conducted monthly.

- Earthquake drills (including tsunami drills and instruction for schools in a tsunami hazard zone) must be conducted two times a year.
- Safety threats including procedures related to lockdown, lockout, shelter in place and evacuation and other appropriate actions to take when there is a threat to safety must be conducted two times a year.
- Drills can and should be carried out as close as possible to the procedures that would be used in an actual emergency. For example, a fire drill must be carried out with the same alerts and same routes as normal. If appropriate and practicable, COVID-19 physical distancing measures can be implemented, but only if they do not compromise the drill.
- When or if physical distancing must be compromised, drills must be completed in less than 15 minutes.
- Drills shall not be practiced unless they can be practiced correctly.
- Train staff on safety drills prior to students arriving on the first day on campus in hybrid or face-to-face engagement.
- If on a hybrid schedule, conduct multiple drills each month to ensure that all cohorts of students have opportunities to participate in drills (i.e., schedule on different cohort days throughout the year).
- Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol after a drill is complete.

Plan Details for 2m.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

Building administrators will conduct emergency drills in accordance with the provisions of Oregon Revised Statutes and school board policy EBCB: Emergency Drills.

Drills will be conducted in the same manner they would typically be carried out, with an additional layer of response to address current health protocols. This would include the required face coverings, and physical distancing to the degree possible. Physical distancing may be accomplished through staggered classroom release, expanded staging areas, or by conducting drills multiple times to ensure all cohorts of students are able to participate.

School staff will be trained to lead their students through a drill that includes the additional protocols, and to adapt their classroom instruction regarding drills.

Requirements for 2n. SUPPORTING STUDENTS WHO ARE DYSREGULATED, ESCALATED, AND/OR EXHIBITING SELF-REGULATORY CHALLENGES

- Utilize the components of Collaborative Problem Solving⁶ or a similar framework to continually provide instruction and skill-building/training related to the student's demonstrated lagging skills⁷.

⁶ See [this site](#) for an overview of Collaborative Problem Solving.

⁷ In the CPS framework, lagging skills are the reasons that a child is having difficulty meeting expectations or responding adaptively to triggers. Specific lagging skills can be assessed using the [Collaborative Problem Solving Assessment & Planning Tool - Likert Scale](#) (CPS-APT) or the [Assessment of Lagging Skills and Unsolved Problems \(ALSUP\)](#).

- Take proactive/preventative steps to reduce antecedent events and triggers within the school environment.
- Be proactive in planning for known behavioral escalations (e.g., self-harm, spitting, scratching, biting, eloping, failure to maintain physical distance). Adjust antecedents where possible to minimize student and staff dysregulation. Recognize that there could be new and different antecedents and setting events with the additional requirements and expectations for the 2020-21 school year.
- Establish a proactive plan for daily routines designed to build self-regulation skills; self-regulation skill-building sessions can be short (5-10 minutes), and should take place at times when the student is regulated and/or is not demonstrating challenging behaviors.
- Ensure all staff are trained to support de-escalation, provide lagging skill instruction, and implement alternatives to restraint and seclusion.
- Ensure that staff are trained in effective, evidence-based methods for developing and maintaining their own level of self-regulation and resilience to enable them to remain calm and able to support struggling students as well as colleagues.
- Ensure that spaces that are unexpectedly used to deescalate behaviors are appropriately cleaned and sanitized after use before the introduction of other stable cohorts to that space.

Plan Details for 2n.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

The district has done training with appropriate staff across the district to use Collaborative Problem Solving. We have worked with buildings around specific behavior plans to reduce the risk of triggering stimuli.

We have appropriate behavior plans and systems in place based around FBAs when appropriate to avoid and address dysregulation. We will adjust these plans when we return to fit the new settings.

We explicitly teach self-regulation strategies in a systematic way based on needs while students are calm. All buildings have staff trained in SYNC or CPI strategies.

Both SYNC and CPI have components for regulating staff emotions. All buildings have plans for student elopement that include the listed components.

If interaction with another cohort occurred that would be appropriately logged. If a student needed to be isolated a space would be identified and used that met the listed criteria and protocol.

Staff would follow our restrain training that includes the listed best practices. Spaces would be cleaned and sanitized. PPE would be cleaned and sanitized.

Requirements for 2o. PROTECTIVE PHYSICAL INTERVENTION

- In accordance with ORS 339.291, ORS 339.300, and OAR 581-015-2556, if restraint or seclusion is used on a student, it must be imposed by personnel who are trained in approved restraint or seclusion programs, or by other personnel who are otherwise available in the case of emergency circumstance. Staff may engage in close contact (less than 6 feet of physical distance) with no

more than two other individuals on a given day for the purposes of assessing physical skills associated with required training components of approved programs, under the following conditions:

- Only participants and trainers are allowed to be present for these sessions.
- Participants and trainers must be screened for symptoms associated with COVID-19 prior to the start of each session. Anyone exhibiting symptoms, by visual screening or self-report, shall not participate in training at that time.
- All participants and trainers must wash their hands immediately prior to and following direct physical contact with another person.
- All people in close contact for this purpose must wear:
 - A surgical mask and face shield or follow [CDC guidance to improve how your mask protects you](#).
 - Gloves
 - Strive to wear other PPE to the extent feasible, including a gown.
- Minimize the amount of time training participants are within 6 feet of physical distance. For example: It is better to limit time within 6 feet to 5 and no more than 15 minutes and spacing back out before training on another practice than to be within 6 feet for a longer duration of time.
- Maintain 6 feet at all other times not actively training at closer proximity.
- Reusable Personal Protective Equipment (PPE) must be cleaned and disinfected following the manufacturer's recommendation, after every episode of physical intervention (see section 2j. Cleaning, Disinfection, and Ventilation). Single-use disposable PPE must not be re-used.

Plan Details for 2o.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

If reusable PPE becomes contaminated as the result of a physical intervention the School will provide staff with single-use disposable PPE for the remainder of the day.

Response to Outbreak (Section 3 of the RSSL Guidance)

Requirements for 3a. PREVENTION AND PLANNING

- Review the "[Planning for COVID-19 Scenarios in Schools](#)" toolkit.
- Coordinate with Local Public Health Authority (LPHA) to establish communication channels related to current transmission level.

Plan Details for 3a.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

We have reviewed the toolkit and our District Nurse works with our LPHA on communications. All reporting and communication protocols will be followed per district COVID-19 Communication Protocol and OHA Mandatory Disease Reporting procedures.

Requirements for 3b. RESPONSE

- Review and utilize the "[Planning for COVID-19 Scenarios in Schools](#)" toolkit.
- Ensure continuous services and implement Comprehensive Distance Learning.

- Continue to provide meals for students.

Plan Details for 3b.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

We have reviewed and utilized the toolkit. Comprehensive distance learning has been implemented and we continue to offer meals to all of our students.

Requirements for 3c. RECOVERY AND REENTRY

- Review and utilize the [“Planning for COVID-19 Scenarios in Schools”](#) toolkit.
- Clean, sanitize, and disinfect surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and follow [CDC guidance](#) for classrooms, cafeteria settings, restrooms, and playgrounds.
- When bringing students back into On-Site or Hybrid instruction, consider smaller groups, cohorts, and rotating schedules to allow for a safe return to schools.

Plan Details for 3c.

Please enter the details of your On-Site or Hybrid plan that correspond to the requirements listed above:

We have reviewed the toolkit and will utilize the scenarios in the event an outbreak occurs.

We are following all guidance for sanitation of our facilities.

Students will be in cohorts with smaller groups and attend in person on a rotating basis.

Custodian schedules will be adjusted as needed to have those staff members on site when students are present. High touch areas and restrooms will be sanitized on a regular basis. Bottle fill stations will be installed in as many locations as possible and drinking fountain use will be discouraged.

Students will have opportunities to participate synchronously or asynchronously in the district's Comprehensive Distance Learning Plan. Electronic devices and wifi hotspots will be distributed to families to ensure access to an education.

ASSURANCES

This section must be completed by any public school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

This section does not apply to private schools.

Let us know whether statement 1 or statement 2 applies to your school plan by typing “Yes” after the prompt that follows the correct statement:

1. We affirm that, in addition to meeting the requirements as outlined above, our school plan has met the collective requirements from ODE/OHA guidance related to the 2020-21 school year, including but not limited to requirements from:
 - Sections 4, 5, 6, 7, and 8 of the [Ready Schools, Safe Learners](#) guidance,
 - The [Comprehensive Distance Learning](#) guidance,
 - The [Ensuring Equity and Access: Aligning Federal and State Requirements](#) guidance, and
 - [Planning for COVID-19 Scenarios in Schools](#)

Does statement 1 apply to your school? **YES**

2. We affirm that we cannot meet all of the collective requirements from ODE/OHA guidance related to the 2020-21 school year from:
 - Sections 4, 5, 6, 7, and 8 of the [Ready Schools, Safe Learners](#) guidance,
 - The [Comprehensive Distance Learning](#) guidance,
 - The [Ensuring Equity and Access: Aligning Federal and State Requirements](#) guidance, and
 - [Planning for COVID-19 Scenarios in Schools](#)

We will continue to work towards meeting them and have noted and addressed which requirement(s) we are unable to meet in the table titled “Assurance Compliance and Timeline” below.

Does statement 2 apply to your school? **NO**

Assurance Compliance and Timeline

If a district/school cannot meet any of the requirements from the sections listed below, provide a plan and timeline to meet the requirement:

- Section 4: Equity
- Section 5: Instruction
- Section 6: Family, Community, Engagement
- Section 7: Mental, Social, and Emotional Health
- Section 8: Staffing and Personnel

Please type below which requirements cannot be met and the plan and timeline to meet them. Be sure to include how and why the school is currently unable to meet them.

School’s response: **All requirements have been met.**
