School Goals

Naas Elementary School is committed to providing a safe and caring learning environment where students are encouraged to pursue excellence in both academic and social learning. This is achieved through regular attendance, integrated curriculum with a focus on critical thinking and problem solving, developing a sense of social responsibility and independence, and a strong partnership between home and school community.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

We welcome all students and family members. Volunteers are encouraged and appreciated. Updated security measures ensure the safety of everyone within the school setting. Naas follows a Positive Behavioral Interventions & Supports model; a behavior program that helps students develop skills toward being responsible and independent community members. Our diverse student population creates an environment in which students are taught to value people for the varied skills and talents they bring. This encourages a supportive and caring environment that decreases incidents of aggressive and bullying behavior.
