

January 19, 2021

Good evening,

I hope you had a peaceful weekend. This afternoon the state released [new metrics](#) and made changes to the [Ready Schools Safe Learners Guidance](#). These metrics and the new guidance should have a positive impact on our school district and our ability to reopen. We are currently evaluating the effect of this new information and will have a complete perspective about entering into a hybrid model after our School Board Workshop on January 28. More information about the board workshop will be available and posted next week.

Sincerely,

Aaron Bayer, Superintendent
