

Reopening our Schools: Health Protocols

Supporting health, safety, and shared responsibility

Bus Transportation

- Drivers and students wear face coverings
- 6 feet physical distance between driver & students
- Siblings sit together
- Passive visual screening for symptoms as students enter bus
- Students exhibiting symptoms seated at the front and given a face mask for added protection, then isolated & monitored at school while waiting for parent pickup
- Buses sanitized between routes

Arrival & Dismissal

- Parents dropping off or picking up students remain in their vehicle
- Separate entrances and exits marked
- Students sanitize or wash hands on entry to and exit from school
- Passive visual screening for symptoms as students enter school/classroom
- Students exhibiting or reporting symptoms isolated & monitored while waiting for parent pickup

Health & Hygiene

- Frequent hand sanitizing or washing
- Face coverings required for staff and students
- Schools/classrooms sprayed with disinfectant daily
- Restrooms & common spaces sanitized multiple times during school day
- High school: desks & other classroom touch-points disinfected during transition time between classes

Physical Distancing & Cohorts

- Strive for 6 feet physical distance between individuals *in common areas*
- *3 feet between students in classrooms*
- Stable cohort/class groups to limit attendance numbers

Meals

- Breakfast and lunch will not be consumed on site
- Students will pick-up their meal pack as they leave at the end of the school day
- Serving days will vary by school
- Teachers may include snack breaks during their daily routine
