

Edgenuity Information

Edgenuity login instructions are at the end of this document. Please let your counselor know right away if you have already completed a course assigned to you.

Students may work as quickly as they would like to complete their course. Course grades will be transcribed at the end of the semester. Make sure you have completed your course by then!

Tips for Success in Web-based Learning Class:

Communication:

- Check your school email, Edgenuity announcements and Edgenuity message board for important information.
- Check your dashboard, current progress and grade every day.

Assignments, Quizzes & Tests:

- Listen to the class instruction videos. This is the information you need to learn and be aware of in your class.
- Take notes! You can use them on quizzes, tests and finals (eNotes/digital or paper).
- You can work ahead in your class. Take the Cumulative Exam (final) when you reach it.
- Assignments you're behind on are calculated into your grade.
- Don't overthink projects! Read directions all the way through. Ask for clarification if needed.
- Quizzes/tests have 3 attempts. If you pass the first but you are not happy with the score you can access the second through Course Map. Your highest test score is used.
- Reviewing quizzes is a great way to study for Unit Tests.

Who to contact if you need assistance:

Tech problem? Question? Incorrect low score? Something doesn't seem right? Please let us know!

| Teacher | E-mail address | Subject(s) |
|-------------------|--|--|
| Ms. Conover | Emily.conover@ortrail.k12.or.us | Chinese |
